

WELCOME to *Dupont Circle Chiropractic*.

Chiropractors are primarily concerned with restoring and maintaining the integrity of your **nervous system** and **spine**.

Nerve impulse is an electrochemical charge transmitted by the brain through the nerve system to all parts of your body. It's the life force that keeps us alive and "charged."

Spinal **subluxations** (misalignments) in your neck or back can put pressure on the nerves or even the spinal cord.

TODAY we will check your **Nervous System** for proper function...

... and your **Spine** for proper Structure.

REMEMBER, an **optimal spine** allows a normal flow of life energy over the nerve system, resulting in the highest level of health possible.

Welcome to

Dr. Robert Feier
Palmer Graduate

Over 20 years experience.
